

Application Guidelines:

Send us your resume as well as a cover letter. Some job descriptions have different instructions.

Please write around 250 words (can be less, just not too much more) cover letter on why you want this job/how you can forward *Vista's* mission; we want dedicated members. We will conduct interviews after this short application process.

If you only want to be a writer, you need not apply for any position, just email us letting us know! We're grateful you want to be a part of our team!

As far as pay goes, if we get our budget approved for the amount we are asking for this year, you will receive a stipend around \$200 this year for a Staff position. We are only in our third year, and our dedication is to provide relevant and engaging content (this means most of our money is going to publishing).

For the Digital Media Director position, a link to your portfolio would be nice, or you can bring samples to the interview (no need to print them).

Email your application to: thevistamagazine@gmail.com or bjmyrin@northpark.edu
